Experience

Scale AI June 2024 - Jul 2024
AI Trainer Remote

Education

Cairo University Oct 2022 - Present
Artificial Intelligence Computer Science and Artificial Intelligence
3.53
🔗 Cairo University

Relevant Courses: Database I , Software Engineer , Web Development , Data Structure , Object Oriented Programming , Structured Programming

Projects

Image Filter June 2024
🔗 Github

Image Processing Project: Developed a C++ program implementing various image processing functions for 256x256 images. Features include black and white conversion, color inversion, image merging, flipping, brightness adjustment, rotation, edge detection, enlargement, shrinking, mirroring, shuffling, blurring, and cropping.

Library Management System May 2024
🔗 LMS

Developed a Library Management System using Python and SQL, featuring book issue/return, user management, and catalog maintenance. Improved library operations with automation and a user-friendly interface, implementing robust data handling and secure login mechanisms. Demonstrated strong skills in software development, database management, and UI design.

Skills

Technical Writing

Problem Solving

Software
Git & Github, Microsoft SQL Server , LinuxOS , Anaconda

Areas of Expertise

C++	**Python**	**SQL**
HTML	**CSS**	**Java Script**
Django	**Java**	**OOA&D**

Certifications

Numpy for Data Science Jun. 2024
Machine Learning Plus
🔗 ML+

Mathematics for Machine Learning: Linear Algebra Jan. 2024
Imperial College London
🔗 Coursera

ECPC Egyptian Collegiate Programming Contest Jul 2023
